The most reliable connection to your baby

The essential connection to your baby

Our new DECT SCD501/00 Baby Monitor delivers complete reassurance. Providing the essentials of a baby monitor. The most reliable connection with crystal clear sound and a comforting night light for you and your baby.

DECT Technology

- DECT technology guarantees zero interference & 100% privacy
- Automatically energy saving Smart ECO mode
- Reassurance with crystal clear sound
- Adjust the volume to your wishes
- 5 LED lights to signal sound

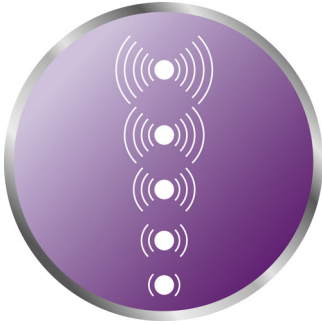

Complete reassurance and Essential comfort

- Always know that your are connected
- Range up to 300 meters*
- The parent unit is mains powered or battery operated
- Optional superior operating time
- Soothing night light

Highlights

5 LED lights

Lights are activated to indicate the level of sound in your baby's room. Even when the Parent Unit is muted.

Crystal clear sound

Hear every tiny giggle, gurgle and hic-up with perfect clarity. DECT technology provides high quality, crystal clear sound so you can hear your baby anytime.

Smart ECO mode

The unique Smart ECO mode automatically minimizes your transmission power and increases your battery lifetime. The closer you are to your baby, the less power is needed for a perfect connection (not available in US and Canada).

Volume control

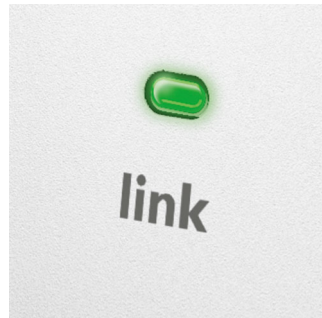

Variable volume to hear every little sound, so you can hear your baby.

Zero interference with DECT

DECT technology guarantees zero interference from any other transmitting product like other baby monitors, cordless phones and cell phones. Data encryption provides a secure and private connection, so you can be sure that you are the only one that can hear your baby.

Always connected

The parent unit of Philips AVENT baby monitor will alert when the power is low or if you are out of range.

Mains and battery operated

The parent unit runs perfectly on mains power. For extra mobility you can also insert batteries to allow cordless use of the parent unit. You can insert two 1.5V R6 AA alkaline non-rechargeable batteries or two 1.2V R6 AA rechargeable batteries*.

Range 300

Indoor range up to 50 meters*, Outdoor range up to 300 meters*.

Soothing night light

Your baby may still be restless when you first put them to bed. Help soothe and calm your baby to sleep with the warm tranquil glow of the night light.

Operating time up to 24 hours

The operating time on full batteries is up to 24 hours, depending on the type of batteries used and how often and how long you use the parent unit on batteries.
